

# Chapter 8 Saudi Arabia's Major Oil Fields

## Haradh-III crude oil production ramp-up

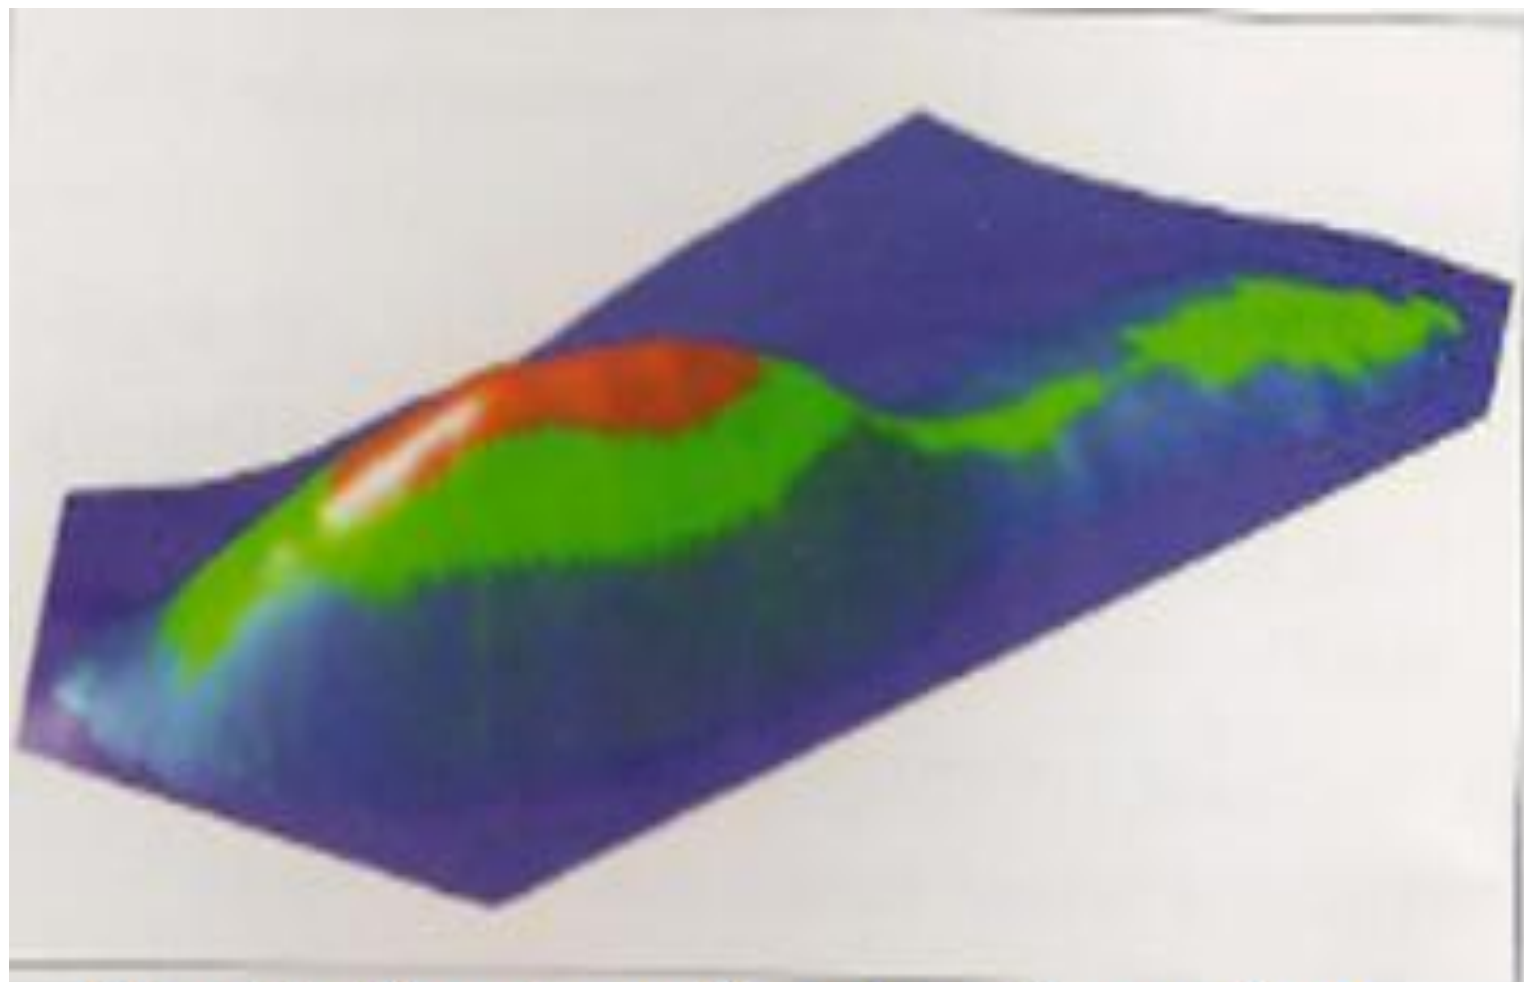

### e-Field/Smart Wells Haradh Increment III

### Quad-Lateral Smart Completion

Onstream: July 2006  
Rate: 300,000 B/D  
Plateau: 30 Years  
Depletion: 1.7% per Year

# Khurais Development

1,200 MBD Arab Light  
350 MMSCFD Gas  
70 MBD NGLs  
310 Horizontal Wells

# Khurais Area Development

## Real Time Reservoir Management

## Strategic surveillance plan

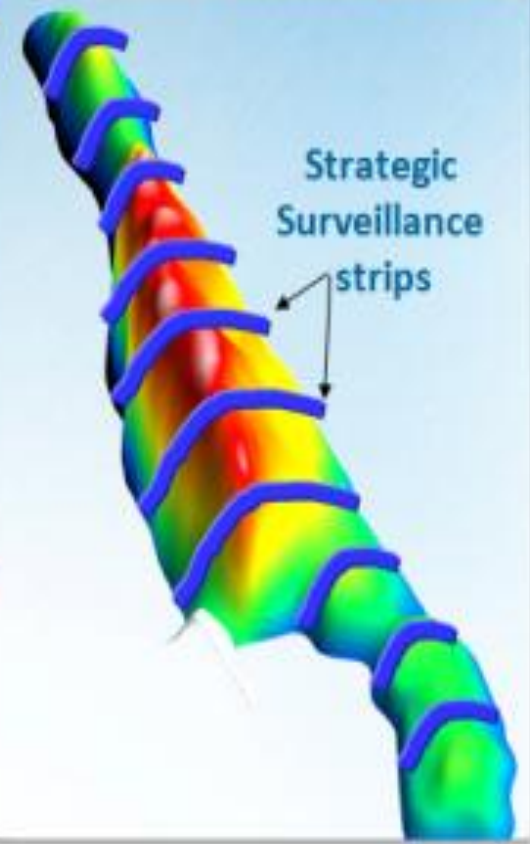

*Saturation Monitoring*

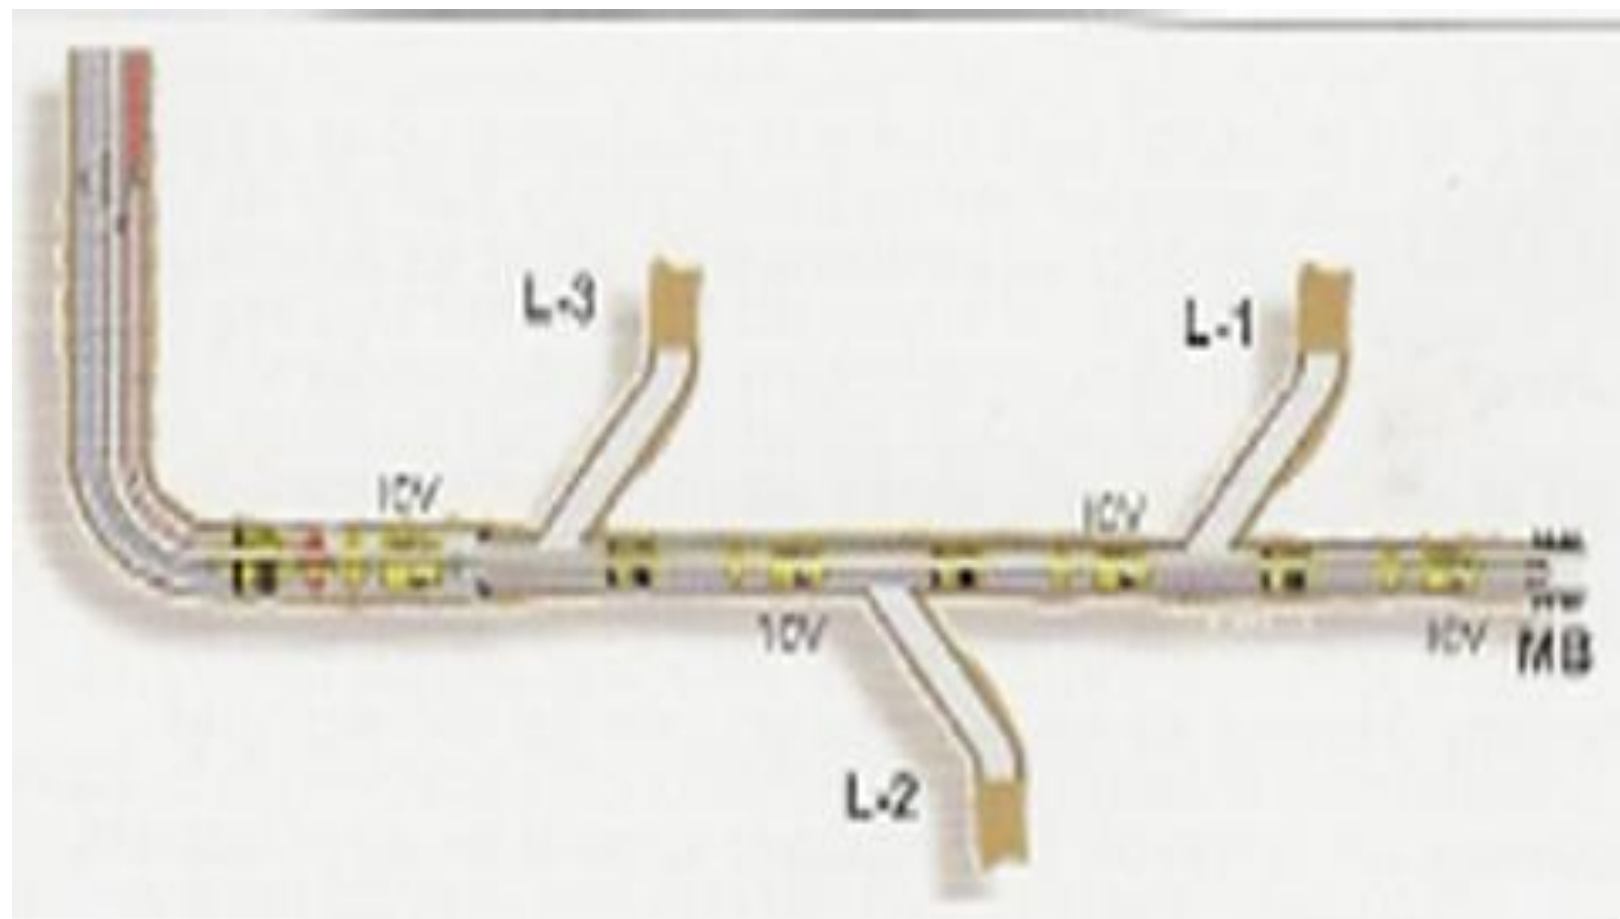

## Real time surveillance

*MFPM, Pressure & Temperature  
Dual PDHMS  
Remotely activated shutdown system*

## Intelligent Reservoir Management Tools

*Data visualization & Real time modeling and simulation*

**Schematic of Quaterlateral well equipped with four ICV's**
